

# ALUCAST 2016 to Showcase Technology for Die-Casting Industry

The 7th edition of ALUCAST - India's biggest and most focussed platform for the Aluminium Die-Casting Industry will showcase their latest cutting edge technology and innovative solutions for the Aluminium Die-Casting Industry.

The event will be held from December 1-3, 2016 at Bangalore International Exhibition Centre, Bengaluru.

The exhibition is organised by the Aluminium Casters' Association of India and the event is produced by NürnbergMesse India. The show has registered a 30 percent growth over the previous edition, with over 150 exhibitors, who The exhibition will witness participation from countries including China, Japan, Germany, Switzerland, Taiwan, Italy, Spain etc

High profile national and international key personnel of core and allied industries including Automobiles, Electronics, Electrical Appliances, Mechanical & Electrical Instruments, Toys and others are expected to visit the exhibition this year.

Some of the leading names from the Industry participating at the event are Jayhind Industries, Bühler AG, Teknomec, Sunbeam Auto Pvt. Ltd., Magma Engineering Asia Pacific Pvt. Ltd., Rockman Industries, Craftsman Automation, Frech, FOSECO amongst others.

ALUCAST 2016 aims at creating a

perfect platform for networking and knowledge sharing by organising a high level conference programme on "Challenges ahead for Aluminium DieCasters", which aims to address the needs of the Industry. The sessions led by influential experts, will cover latest technology and market topics, and provide participants an opportunity to gain new skills and knowledge to enhance their expertise in various domains.

The event will further be complemented by the Best Die-Casting Award rewarding the outstanding casting designs of the year and the Best Foundry Awards, which would recognise leading companies with respect to their commitment to quality in all aspects of manufacturing, improvement projects and continuous investment in new technologies.

Speaking on the occasion, Prasan Firodia, President, ALUCAST & Managing Director, Force Motors said "India has emerged as an important manufacturing hub for both multinational as well as domestic auto companies. The Auto Industry accounts for 7 percent of the GDP of the country.

Indian auto-components industry is expected to register a turnover of US\$ 66 billion by FY 15- 16 with the likelihood to touch US\$ 115 billion by FY 20-21. This augurs well for the die-casting Industry as the auto industry accounts for 60 percent of the consumption.

ALUCAST 2016 will provide an

international platform to leading manufacturers and technology suppliers to showcase their latest cutting edge technology", he concluded.

Sonia Prashar, Managing Director, NürnbergMesse India, said with a record 30percent growth over last edition, ALUCAST 2016 promises to be bigger and better than before. These impressive numbers correspond to the growing importance of the die casting industry in India. At ALUCAST, we offer a business platform which gives participants an opportunity to showcase their latest products and technology on offer and network with a global audience.

The Aluminium Casters' Association of India (ALUCAST) is a registered body, with head office at Pune. It is managed by a Board of Trustees. Its list of members includes manufacturers of aluminium castings, users of castings, manufacturers and suppliers of die casting machines and peripherals, for die casting machines, foundry chemicals and consumables, design software, casting process simulation software, dies, and others connected with casting manufacture and post casting processes.

NürnbergMesse is one of the 15 largest exhibition companies in the world. The portfolio covers some 120 national and international exhibitions and congresses and approx. 40 sponsored pavilions at the Nuremberg location and worldwide.
