# Middle East Foundry Summit

(Conference & Exposition)

2 - 3 May 2018

Grand Excelsior Hotel, Deira, Dubai

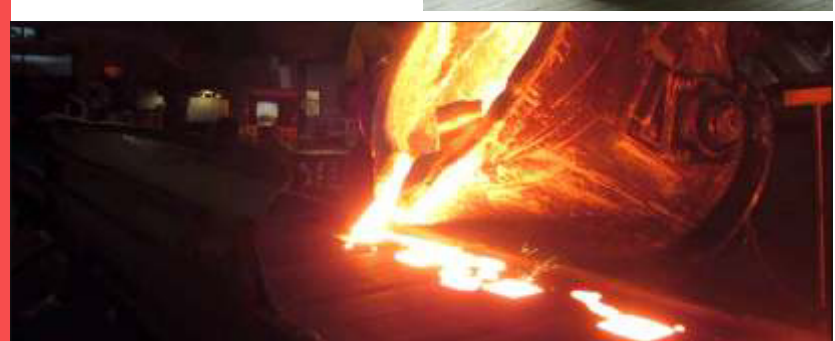

- Technology & Equipment
- Raw Materials
- Foundry Management
- Applications & Markets

ORGANISER

## Evaluation of Middle East Foundry Sector

Viability • Efficiency • Markets

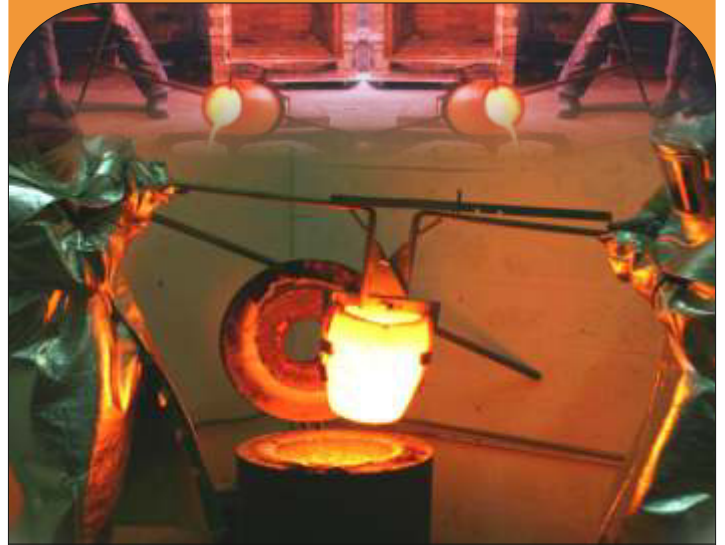

## Background

According to some estimates there are some 100 foundries in the Middle East region, ferrous as well as non-ferrous, producing approx 3,00,000 tons per year. Out of this 20% is consumed by local market and rest is being exported to various countries. The foundries are producing almost all sorts of grades including SG iron, Grey iron, Steel etc. Foundries cover a vast variety of products including valves, heat and wear resistant castings, castings for earth moving equipments, main hole covers, scaffolding castings etc. More or less all the foundries have shown growth in last five years. But still there is a huge potential for the new foundries having specialized products like investment castings, reformer tubes, automotive sector castings, and the products for oil field industries, non ferrous castings particularly Aluminium based on pressure die casting etc. A foundry with good automation would certainly be successful.

Middle East markets offer huge potential for the investors who want to venture in new foundries. Though the market size is small there is a big potential as the market is growing at phenomenal speed. There are several industries in general and oil field in particular which still depend on the European suppliers. The countries that can be catered by road from UAE are Oman, Saudi Arabia, Kuwait, Yemen and Qatar.

## The Summit

'Middle East Foundry Summit' is the first ever foundry trade show happening in the region. The conference will discuss the new technologies, processes being employed worldwide, the emerging markets for the castings produced in the Middle East region, raw materials linkages, consumable supplies and also competitive sourcing for equipments required for running a foundry.

The conference will include presentations by the industry experts from all over the world. It will also have a panel discussion to debate the techno-commercial issues facing the industry in the region.

The exposition alongside the conference will display the latest products, equipments, technologies, raw materials related to foundry industry and will be of great interest to foundry professionals.

### 3 EASY ways to register

022-26192376 / 26171575

022-26162817

[info@metalworld.co.in](mailto:info@metalworld.co.in)

## Who Can Benefit

- Foundries - Ferrous & Non-Ferrous
- Raw Material Suppliers
- Foundry Equipment Manufacturers
- Technology & Instrumentation Companies
- Exporters of Castings
- Buyers of Castings
- Consultants
- Service Providers
- Financial Institutions
- Policy Makers

## Exposition

STAND  
DETAILS

**Equipped Stand of  
Size : 2 m x 2 m**

**(Registration Details in  
the form enclosed)**

An exposition is being organised alongside the Conference. It will showcase new technologies, processes & products and inturn enhance business. The exposition will be opened to delegates and other industry professionals.

## Organisers

### Metalworld

'Metalworld' is a leading metal information & consultancy organisation in the metal sector. The monthly magazine 'Metalworld' reaches more than 30,000 metal professionals. It conducts industry studies and brings out analytical reports on the industry from time to time. 'Metalworld' has a B2B industry portal, [www.metalworld.co.in](http://www.metalworld.co.in), which facilitates information, consultancy and trading. It also produces an E-zine named 'Metalworld News Digest'.

'Chandekar Business Media Pvt. Ltd.', the parent company of 'Metalworld', is a leading metal business media company in Asia. With it's magazines 'Metalworld' & 'Steelworld', it promotes meaningful & constructive interaction between steel & metal professionals of various regions.

## Registration

### Delegate Registration

- Kindly fill in the enclosed registration form and send along with the payment.
- The delegate fee includes conference kit & lunch.
- The delegate fee does not include travelling and accommodation.

### Payment

Please refer Registration form for fees & payment instructions.

## Venue

### Grand Excelsior Hotel Deira, Dubai

Al Mateena Street, P. O. Box 5772, Dubai,  
United Arab Emirates  
Phone : +971 426 88888

Grand Excelsior Hotel is only a few minutes' drive from Dubai Intl Airport, which is strategically located in the historic and commercial center of Deira. The proximity to the airport makes it a popular choice for meetings, conferences and business travellers.

## Travel & Stay

Dubai is the 2nd largest of the seven emirates which constitute the UAE with an approx 3900 sq km in size.

It has a cosmopolitan society with an international life style with a culture deeply rooted to the Arabian tradition.

What was for decades the leading trading centre of the middle east is now a dynamic international business centre of high global significance which has lead this emirate as the foremost location for international conferences & exhibitions.

It is also the leisure and sporting capital of the middle east, with the worlds most renowned shopping and entertainment facilities.
